INFORMATION YOU WILL NEED TO COLLECT

You will need to contact 2-3 water well contractors in your area for estimates. The contractors will come to your site to assess what is needed and will give you an estimate for the work to be completed. *It is your decision as to which contractor to use.*

You need to provide a copy of the estimates from the water well professionals with this application. The estimates must provide:

- Expected/Estimated cost: (e.g., cost per foot drilled)
- Description of all work
- Specs for all materials to be used or installed
- Quotes should not include any maintenance agreements or extra repair parts

Additional information required from the water well/water quality professionals includes:

- Warranty for work to be done
- Certificate of insurance
- Certification or License Number
- Estimated start and end date for work

Provide a copy of a valid permit for a well if it is required by your county. Your water well contractor can help you with this, or you may need to go to your local health department and pay the associated fee. Take proof of income with you and the fee may be waived. Getting a permit usually takes several weeks, **so do this as soon as you can.**
