We Believe

Hardworking families, small business owners, and family farmers drive and sustain rural economies and communities. They deserve the opportunity and tools to build a good life that recognize and value their hard work.

We Acknowledge

Rural residents are being held back by a shortage of decent, affordable homes near their work and schools like their urban counterparts. Many are forced to spend more than half their income on housing, leaving less for essentials like food, childcare, and transportation.

Housing should be available and accessible to every hardworking family, small business owner, and family farmer. COME HOME, our community-centered housing solution, engages rural communities to achieve this goal, offering innovative solutions and supporting economic prosperity that starts and stays in rural communities.
