## WE BELIEVE

Hardworking families, small business owners, and family farmers drive and sustain rural economies and communities. They deserve the opportunity and tools to build a good life that recognize and value their hard work.

## WE ACKNOWLEDGE

Rural residents are being held back by a shortage of decent, affordable homes near their work and schools like their urban counterparts. Many are forced to spend more than half their income on housing, leaving less for essentials like food, childcare, and transportation.

## APPLY ONLINE

**Qualified homeowners may be eligible for a grant up to \$15,000 towards a new, FORTIFIED roof.**

A fortified roof offers more significant protection for the homeowner as it's designed to withstand high winds and is crucial during severe storms like tornadoes. When the asphalt shingles are torn off a traditional roof, there's nothing to prevent rain from entering the home, which can cause significant damage. This often leaves families displaced for six months to a year while waiting for repairs, creating major disruptions for both the families and the community.
